

a hands-on course

9-12 December 2018 | Maastricht | The Netherlands

It is our pleasure to invite you to participate in the first **Hands-on course on BigData 4 Imaging - Medical Imaging Artificial Intelligence – Radiomics, Deep Learning and Distributed Learning.**

This course will give you an overview of the history of Medical Imaging Artificial Intelligence we then discuss the success stories but also the pitfalls. Next, we will review the process from data acquisition, access to the DICOM objects, features extraction, machine learning (including new developments with Deep Learning) analysis and validation. In the final part of the course, we will discuss the current challenges and directions of research in the field; in particular, the necessity of dealing with large annotated data sets, the FAIR principles and the distributed learning approach. The course will be divided into lectures during the morning and hands on assignments in the afternoon. Participants are encouraged to come with their data and we will organize (if possible) matching data for validation from other participants on the course. Further information on the course can be found shortly on www.bigdata4imaging.info

COURSE IN THE CONTEXT OF

The Marie Curie Network PREDICT, the STW project STRATEGY, the Interreg project EURADIOMICS

RULES & REGULATIONS

Application

Sponsorship can be booked by completing and returning the enclosed Sponsorship Application Form to the attention of Mieke Akkers at M+, the Course Secretariat. Applications will be considered on a first-come, first-served basis. In signing the application form, companies declare their acceptance of the rules and regulations.

Conditions

- Because only a limited number of booth spaces are available, the Local Organising Committee will assign booth space on a 'first come, first served' basis.
- A technical manual with detailed information on exact build-up and dismantling times, will be sent to all exhibitors in September 2018.
- Company delegates staffing the booth should register to attend the course and have access to the complete educational programme.

Terms of payment

- EURO is the only currency accepted for payments.
- Payment in full for the sponsorship is due no later than 30 days after the date of the invoice. In any case the invoice must be paid before the start of the course.

Cancellation policy

Cancellation of sponsorship must be submitted the organisers in writing. The effective date of cancellation or reduction of sponsorship will be the date on which the organisers receive the written notice:

- Cancellation of sponsoring agreement before 1 June 2018: 25 % of the full sponsor costs will be retained.
- Cancellation after 1 June 2018 and before 15 August 2018: 75% of the full sponsor costs will be retained.
- Cancellation after 15 August 2018: no refunds will be made.

Protecting your privacy

We are committed to your data privacy and protection. If you apply to our course as a sponsor you allow us to keep your data in order to contact you with further practical details on this course and to send you the invoice for this course. Your data will only be stored till one month after the course. Unless you gave us the explicit approval to use your data for future courses.
